

CRITICAL INFORMATION SUMMARY

Standard 12Mbps (FTTN) - Unlimited & PAYG Home Phone

Information about the Service

This service provides both a home phone landline service plus a high-speed Fibre to the Node (FTTN) internet & voice service which is delivered over the National Broadband Network with line interface speeds of 12 Mbps (download) and 1 Mbps(upload).

Bundling Requirements

In order to receive this service you are required to bundle both a home phone and a broadband service with Dodo.

Equipment Required

For your internet service you need a compatible modem and telephone handset. You may buy a modem outright from Dodo or opt for a Dodo supplied modem at \$0/month. The supplied modem must be returned if your service is cancelled. A non-return fee (\$109) applies 30 days after cancellation if not returned. See website for current charges. Modem may be refurbished. Pick up hardware from Dodo (Clayton, Victoria) or have delivered for \$24.90 (Postage & Handling).

Minimum Term - 1,12 or 24 months

Service Availability

The service is not available in all areas. Your specific access service will be determined by what is available at your location and the service speed you experience for broadband depends on a number of factors, including your equipment, the quality and location of your line, and the applications that you are using.

New Development Fee

If you are in a newly constructed building and not already connected to the nbn, NBN Co may charge you a once-off New Development charge of \$300 (inc GST). Where the additional work is required to connect your nbn service is more than a standard professional installation, you may be charged an additional fee.

Included Data

Your plan includes the following data
Total Data Allowance: Unlimited data

Installation

Standard installation is included. Non-standard installations may incur additional costs.

Information about Pricing
